

AMENDMENTS TO THE CLAIMS

Cancel claims 1-47, 49-51 and 53-55 without prejudice.

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-55. (canceled)

56. (new) A system comprising:

a first computer which includes a first mouse, said first mouse including a first button; and

a second computer in communication with said first computer; said second computer including a second mouse, said second mouse including a second button;

said first computer operative to generate a sequence of first information which includes a first plurality of levels of information;

said second computer operative to generate a sequence of second information which includes a second plurality of levels of information;

said system operative to present a first one of said second plurality of levels of information to a first user via said first computer at a time when said first button and said second button are both activated;

said system operative to present a first one of said first plurality of levels of information to a second user via said second computer at said time when said first button and said second button are both activated;

said system continuing to present additional ones of said second plurality of levels of information to said first user via said first computer and to present additional ones of said first plurality of levels of information to said second user via said second computer, only so long as said first button and said second button both remain activated.

57. (new) The system of claim 56, wherein:

said first computer provides an indication to said second computer that said first button is activated; and

said second computer provides an indication to said first computer that said second button is activated.

58. (new) The system of claim 56, further comprising:

a server in communication with said first and second computers to relay information between said first and second computers.

59. (new) The system of claim 56, wherein:

said sequence of first information includes a first series of images of increasing resolution; and

said sequence of second information includes a second series of images of increasing resolution.

60. (new) The system of claim 56, wherein:

said first plurality of levels of information includes levels of personal information concerning said first user; and

said second plurality of levels of information includes levels of personal information concerning said second user.

61. (new) The system of claim 56, wherein:

said first plurality of levels of information includes levels of employment qualifications of said first user; and

said second plurality of levels of information includes levels of job description information of an employer of said second user.
